

Call4Sure

Cellular Phone Paging

Are You Giving Your Guests the Service & Flexibility They Desire?

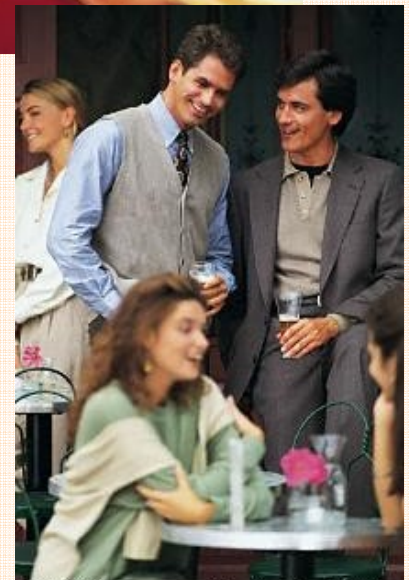

Busy restaurants stay that way by taking care of guests' needs. This can occur even before a guest sits down, by improving the waiting experience. Give your guests the ability to wait in and around your restaurant, and call them on their cell phone when a table is ready. *Call4Sure™* from JTECH handles all of this, and more.

With *Call4Sure*, not only can you call guests cellular phones, but they can also respond to confirm their intended return. *Call4Sure* helps you deliver superior guest service while improving guest flow, reducing potential pager loss and maximizing store revenues, especially during peak periods.

With Call4Sure You Can...

- ◆ *Provide superior service to your guests*
- ◆ *Streamline entry and exit processes*
- ◆ *Eliminate unsightly queue lines*
- ◆ *Maximize revenues, especially during peak periods*
- ◆ *Improve the guest waiting experience*
- ◆ *Reduce potential guest pager loss*
- ◆ *Differentiate yourself from the competition*
- ◆ *Minimize pager system investment costs*

*Let JTECH Be Your Trusted Solutions Partner...
Today And For Years To Come.*

Call4Sure™ Cellular Paging

Call4Sure integrates with the GuestAlert® and PeopleAlert™ wireless messaging systems to deliver added value and flexibility to the operator and end-user. In addition to calling waiting guests or clients via their cellular telephone, Call4Sure also gives customers the ability to accept or decline the page, letting you know of their status immediately so you can best accommodate all waiting guests. When configured with the optional printer and software settings, Call4Sure can manage all basic wait list opportunities for your business.
