

StaffComm Messaging Solutions

“Catering Service to the Bayview Room”

You work hard to attract and provide the best service to your guests. Why not use today's wireless technology to help you work 'smarter' and more efficiently?

Just as we revolutionized server and guest communications in restaurants, JTECH also brings that simplicity and connectivity to banquet and catering venues. Simply place a wireless StaffComm™ transmitter on a conference or boardroom table, or mount it on a meeting room wall and empower your guests to communicate instantly with your staff.

With StaffComm, your guests can summon a catering attendant, supervisor or manager with the touch of a button. Part of the SmartAlert® suite of wireless messaging solutions, StaffComm improves guest service by helping you provide the most responsive service throughout the hotel/resort, all for a minimal investment.

StaffComm is your Solution to...

- ◆ *Directing staff to specific areas immediately*
- ◆ *Communicating specific requests to individuals and/or groups of people*
- ◆ *Improving guest service and satisfaction*

*Let JTECH Be Your Trusted Solutions Partner...
Today And For Years To Come.*

StaffComm Messaging Solutions

The StaffComm™ Push Button Messaging solution from JTECH Communications provides a unique on-site messaging solution ideal for hotel, banquets, conferences and convention venues. JTECH push button messaging puts detailed, discreet communications capabilities at your fingertips.

Product Specifications

- JTECH SmartAlert® transmitters offer 2 watts of power to provide complete building-wide coverage
- Wireless hand-held push button transmitters offer simple installation
- 4-button transmitters can be programmed with a variety of messages for custom implementations
- Each push button can signal a single person or a group of people with the touch of only one key
- Instantly notify specific management staff and attendants to respond directly to the needed area immediately
- 1-button and 4-button hand held transmitters available
- Available 900MHz signal repeaters to expand coverage to StaffComm transmitters

Telephone Interconnect Option

- Allows anyone with a touch-tone (DTMF) telephone direct access to the paging system
- Telephone interconnect requires one analog telephone line for connection

SmartAlert Messaging Solutions

The SmartAlert® system with StaffComm™ push button transmitters streamlines communications with discreet text messages, improving personalized guest service, hotel ambiance and overall operations. These improvements translate into increased revenues and improved profitability.
