

Fast Casual Paging

Raise Restaurant Revenues

Streamline customer flow in fast-casual restaurants with GuestAlert® from JTECH. The *Restaurant Tough™* GuestPass™ pager enhances the guest experience with more efficient service.

GuestPass is easy to hold, use and manage, with valuable features including a patented, space-saving charger design, rapid-charging technology, standard and custom voice alerts to reduce loss, and integrated promotional space to support your in-store marketing initiatives.

GuestAlert Allows You To:

- Increase Speed of Service
- Reduce Chaos at the Counter
- Reduce Labor Expenses
- Remove Overhead Paging Noise
- Alert Guests Silently
- Improve Efficiency

GuestPass™

Service by You. Efficiency by JTECH.

The GuestAlert® system for fast casual environments simplifies the guest queuing challenges that seem to plague this unique dining niche.

Only GuestAlert provides 12 FCC licensed frequencies, three distinctive pager styles and a durable and powerful 2 Watt transmitter for maximum range and area coverage to meet all of your operational needs.

GuestPass™

Glowster® Plus

PatronPass™

GuestAlert Transmitter

GuestAlert Features:

- Easy operation and installation
- Plugs into standard 110V outlet
- Operates in FM mode on UHF (450-470 MHz)
- 12 FCC licensed frequencies
- Available Call4Sure cell phone paging module
- Adjustable power settings with up to 2 watts of power provides complete area coverage
- A variety of pager solutions to best accommodate various operating environments and budgets
- Complete system warranties for end-to-end protection of your system investment
- Out of range feature captures guests and reduces pager loss
- Integrates with other JTECH systems
- Designed *Restaurant Tough*™

"GuestPass is much easier to handle...it's lighter and easy for the customer to hold. The 'out of range' and 'search' voice functions are very helpful. I also like the fact that I can change the rechargeable battery myself, eliminating any down time."

- Satisfied JTECH Customer
