

Two-Way Radio Solutions

Consistent with JTECH's long-standing reputation and leadership role in delivering on-premise communication solutions, we provide end-users with Motorola® professional two-way business radios and accessories to allow flexibility in applications requiring voice communications. Solutions include the Motorola CLS, CLP and RDX Series radios.

CLS Series

The CLS Series is a small, light and economical professional radio offering designed for use in restaurants, retail stores and schools, as well as light industrial uses. CLS Radios are designed to work well in buildings up to 15 floors or 200,000 sq. ft.

STANDARD FEATURES

- ◆ One Watt of Output Power
- ◆ Up to Four Channels of Operation
- ◆ 56 UHF Business Exclusive Frequencies
- ◆ 121 Interference Elimination Codes
- ◆ Multi-function LCD Backlit Display
- ◆ Battery Meter Icon
- ◆ Audio Jack (hands-free) VOX (CLS 1410)
- ◆ Audible Call Alerts
- ◆ Multi-channel Scan (CLS 1410)
- ◆ Lithium Ion Battery (lasts up to 12 hours)

CLP Series

The sleek *new* CLP Series is Motorola's most **C**ompact, **L**ight and **P**ortable professional radio offering, ideal for use in restaurants, hotels, retail stores and educational applications where form, fit and function are of paramount importance. With similar features to its' sister CLS Series, the repeater-capable CLP Radios also delivers expand range options without sacrificing its' low profile presentation.

STANDARD FEATURES

- ◆ One Watt of Output Power
- ◆ Up to Six Channels of Operation
- ◆ 89 UHF Business Exclusive Frequencies
- ◆ 121 Interference Elimination Codes
- ◆ Custom Frequencies and Codes
- ◆ Multi-color Channel Indicator Light
- ◆ Repeater Capable
- ◆ Customer Programming Software (CPS)
- ◆ Bluetooth Capable (CLP 1060)
- ◆ Multi-channel Scan (CLP 1040 & 1060)
- ◆ High Capacity Lithium Ion Battery Option (lasts up to 18 hours)

RDX Series

The RDX Series provides a robust two-way business radio platform with unrivaled audio quality and extended battery life (up to 26 hours!) The RDX Series features both mid-tier and high-power radio offerings in a single form factor with consistent power and audio accessories for simplified implementation and management. RDX radios are designed for larger buildings and frequency matching, working well in buildings up to 350,000 sq. ft. or 30 floors.
