

# Restaurant Solutions

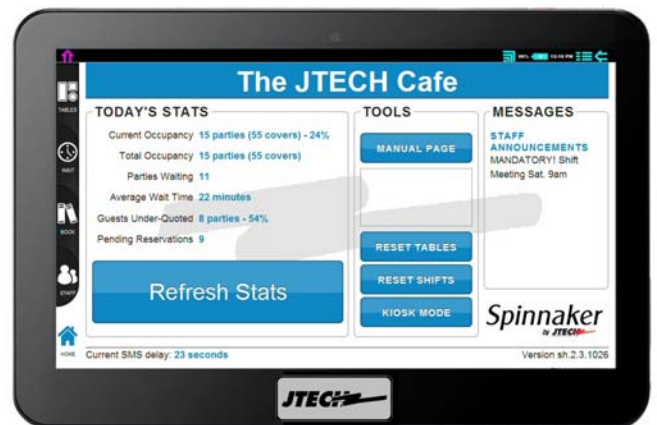

**Spinnaker**  
by **JTECH**

## Increase Covers, Reduce Operational Costs, Improve Service, Drive Repeat Business

**Spinnaker** optimizes throughput and team efficiency with modular tools for these critical operations:

- ⇒ Electronic wait list
- ⇒ Guest messaging with integrated paging *and* text messaging
- ⇒ Server assignments & station rotation
- ⇒ Table management with mobile updating
- ⇒ Call aheads & web reservations (no per cover fees!)
- ⇒ Text message marketing

With **Spinnaker**, you'll see an immediate increase in revenue as you reduce walk-aways, increase covers and table turns, and improve the guest experience.

## Spinnaker Benefits

- Improve host and seating efficiency by streamlining manual activities
- Balance guest distribution for better service quality with automated server rotation
- Reduce no shows and increase table turns with paging's "electronic tether"
- Text messaging connects customers that prefer this type of communication
- Increase repeat visits with appropriate promotions via targeted SMS text marketing
- Maintain a consistent, predictable and cost-effective monthly operational expense

# Service by You. Efficiency by JTECH.

## Spinnaker

by JTECH

A **Spinnaker** is a sail that "catches the wind at your back" to propel you forward. *Spinnaker by JTECH* delivers a modular yet integrated set of operational tools that streamline restaurant operations to reduce costs and increase revenues.
