Call Button Paging

1 and 4 Call Button messaging solutions allow for clear, instant and direct messages and alerts. Your communication needs are critical when it comes to providing excellent patient care and summoning key personnel.

Providing secure communication to doctors and staff is a complex process yet one that has to be accomplished as discreetly as possible.

Streamline patient flow, create a calm, stress free and efficient environment and direct staff members to specific locations to provide efficient patient care.

1 Call Button Transmitter

Instantly alert one or multiple pagers with 1 unique message.

4 Call Button Transmitter

Instantly alert one or multiple pagers with up to 10 unique messages.

Additional Capabilities

Concise, Specific Messaging

Streamline communication and get the right message to the right person immediately.

Excellent Range & Coverage

With JTECH transmitters and receivers get reliable in building coverage.

Calm, Stress-Free Environment

Instant, silent and discreet messaging eliminates noisy overhead systems and enhances patient experience.

Easy Installation & Operation

Pre-programmed and customizable system allows for plug-and-play installation and operation.

Individual & Group Messaging

Communicate specific requests to both individuals and assigned groups for increased efficiency.

Streamline Staff Communication

Immediately locate & communicate with staff for optimal responsiveness.
